(57) **CLAIM**

The ornamental design of the noise reducing filter end cap for a hair dryer, as shown and described.

DESCRIPTION

FIG. **1** is a perspective view of the noise reducing filter end cap for a hair dryer in accordance with the principles of the present disclosure illustrated mounted to a hair styler apparatus;

FIG. **2** is a front perspective view of the noise reducing filter end cap for a hair dryer;

FIG. **3** is a rear perspective view of the noise reducing filter end cap for a hair dryer;

FIG. **4** is a front axial view of the noise reducing filter end cap for a hair dryer;

FIG. **5** is a first side elevation view of noise reducing filter end cap for a hair dryer;

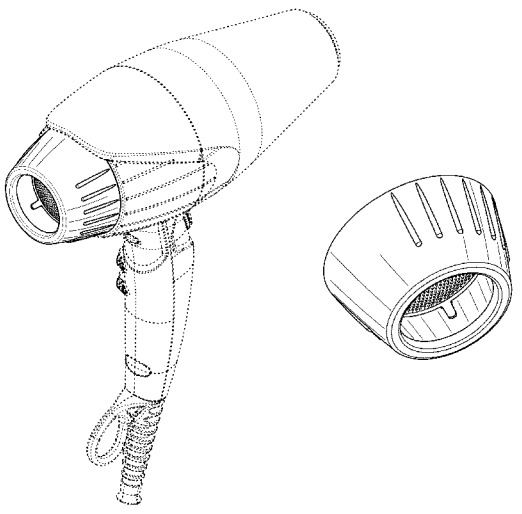

FIG. **6** is a second side elevation view of noise reducing filter end cap for a hair dryer;

FIG. **7** is a third side elevation view of the FIG. **5** is a first side elevation view of noise reducing filter end cap for a hair dryer; and,

FIG. **8** is a rear axial view of the noise reducing filter end cap for a hair dryer.

Any portions of the figures shown in broken lines are for illustrative purposes only and form no part of the claimed design.
