UNITED STATES PATENT OFFICE.

RICHARD M. ATWATER, OF MILLVILLE, NEW JERSEY, ASSIGNEE TO JAMES WHITALL, JOHN MICKLE, C. ALBERT TATUM, JOHN M. WHITALL, J. WHITALL NICHOLSON, AND FRANCIS M. UNDERHILL, ALL OF PHILADELPHIA, PENNSYLVANIA.

DESIGN FOR A BOTTLE.

SPECIFICATION forming part of Design No. 18,021, dated January 24, 1888.

Application filed November 14, 1887. Serial No. 255,165. Term of patent 14 years.

To all whom it may concern:

Be it known that I, RICHARD M. ATWATER, a citizen of the United States, and a resident of Millville, Cumberland county, New Jersey, have invented a new and original Design for a Prescription-Bottle, of which the following is a specification.

My design for a prescription bottle is fully illustrated in the accompanying drawings, Figure 1 of which is a side view of the bottle, Fig. 2 is a transverse vertical section on the line 1 2, Fig. 1; and Fig. 3 is a sectional plan on the line 3 4, Fig. 1.

The body A of the bottle is elongated in cross-section, as shown in Fig. 3, and has straight front, back, and sides a, a, with rounded shoulders b at the top merging into the neck d.

On the shoulder b of the front face of the bottle is a circular tablet, f, with raised border g.

I claim—

The herein-described design for a bottle, said design consisting of the body oblong in cross-section and having at the top shoulders merging into the neck, and a tablet on the shouldered portion of the front, said tablet being surrounded by a continuous raised rim, all substantially as shown and described.

In testimony whereof I have signed my name to this specification in the presence of two subscribing witnesses.

RICHARD M. ATWATER.
