(54) Title: INTER-RAT MEASUREMENTS FOR A DUAL-SIM DUAL-ACTIVE DEVICE

FIG. 5

(57) Abstract: A method of wireless communication is presented. The method includes monitoring a first RAT for a first paging message with a first receive chain. The method also includes monitoring a second RAT for a second paging message with a second receive chain. The method further includes performing, for the first SIM, an inter-frequency/inter-RAT measurement for the first RAT. The method still further includes performing, for the second SIM, an inter-frequency/inter-RAT measurement for the second RAT.

PCT/US2013/053860

A. CLASSIFICATION OF SUBJECT MATTER

INV. H04W88/06  
ADD. H04W48/18 H04W68/02

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)  
H04W

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

EPO-Internal , WPI Data

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.

Further documents are listed in the continuation of Box C.

See patent family annex.

\* Special categories of cited documents :

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family
