(54) Title: EXCEPTION NOTIFICATION SYSTEM AND METHOD

(57) Abstract: A system and method for distributing prepaid cash alternatives and resolving exceptions related to the sale of prepaid cash alternatives such as traveler's checks or prepaid cards. Reports of sales may be reviewed to identify exceptions, and information explaining the exceptions may be made available electronically. Sellers may be notified of exceptions by email, which may include a link or address to information explaining the exceptions. The information may be provided in real time through a secure site on a network (17), such as the Internet. A company (18) may contract with business partners (15, 16) to sell the prepaid cash alternatives to customers (11, 12, 13, 14), and the business partners may report the sales to the company via reports. After being notified of exceptions, business partners may provide corrected information or new information to resolve the exceptions.
