UNITED STATES PATENT OFFICE.

HENRY E. WAITE, OF NEWTON, MASSACHUSETTS.

DESIGN FOR A MAIL-PACKER.

SPECIFICATION forming part of Design No. 26,293, dated November 17, 1896.

Application filed September 28, 1896. Serial No. 607,268. Term of patent 14 years.

To all whom it may concern:

Be it known that I, HENRY E. WAITE, of Newton, in the county of Middlesex and State of Massachusetts, have invented a certain
5 new and original Design for a Mail-Packer, of which the following is a specification.

This invention relates to a new and original design for a mail-packer; and it consists in the novel features of shape and configuration hereinafter fully described and particularly claimed, and clearly illustrated in the
10 drawings.

Reference is to be had to the accompanying drawings, and to the letters marked thereon,
15 forming a part of this specification, the same letters designating the same parts or features, as the case may be, wherever they occur.

Of the drawings, Figure 1 is a plan view of a mail-packer, showing my design. Fig. 2 is
20 a perspective view of the same inverted.

The leading feature of my design consists

of the surface having an outline that is partially circular and partially broken or recessed.

a is the center of the packer, which has a
25 flat surface with an outline that is circular, as at *b*, straight, as at *c*, and curved, as at *d*. The under surface of the packer has a depending rim *e*, conforming in outline to the outline of the packer, the inner edge of the
30 rim being curved at *f*.

I claim—

The design for a packer substantially as shown and described.

In testimony whereof I have signed my
35 name to this specification, in the presence of two subscribing witnesses, this 24th day of September, A. D. 1896.

HENRY E. WAITE.

Witnesses:

A. D. HARRISON,
P. W. PEZZETTI.
