(54) **Title:** METHOD OF INCREASING THE MILK AND/OR MEAT QUANTITY OF SILAGE-FED ANIMALS

(57) **Abstract:** The present invention relates to a method of increasing the milk and/or meat quantity of silage-fed animals comprising the steps: a) treating plants and/or propagules and/or sites where the plants are growing or are to grow with at least one strobilurin compound b) producing silage from the plants treated according to step a) c) feeding the milk and/or meat producing animals with the silage produced according to step b) made from the plants treated according to step a). Furthermore, the present invention relates to silage for feeding animals, produced from plants treated with at least one strobilurin compound prior to producing said silage. In addition, the present invention relates to the use of at least one strobilurin compound to increase the milk quantity of silage-fed milk-producing animals. Moreover, the present invention relates to the use of at least one strobilurin compound to increase the meat quantity of silage-fed meat-producing animals.

International application No  
PCT/EP2008/067609

**A. CLASSIFICATION OF SUBJECT MATTER**  
INV. A01N37/50 A01N47/24 A23K1/00

According to International Patent Classification (IPC) or to both national classification and IPC

**B. FIELDS SEARCHED**

Minimum documentation searched (classification system followed by classification symbols)  
A01N A23K A23L

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

EPO-Internal, WPI Data, BIOSIS

**C. DOCUMENTS CONSIDERED TO BE RELEVANT**

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
Y	WO 01/74142 A (GAERTNER FALK [DE]) 11 October 2001 (2001-10-11) page 1, line 4 - line 10 page 3, line 33 - line 37	1-16

Further documents are listed in the continuation of Box C.

See patent family annex.

\* Special categories of cited documents :

- \*A\* document defining the general state of the art which is not considered to be of particular relevance
- \*E\* earlier document but published on or after the international filing date
- \*L\* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- \*O\* document referring to an oral disclosure, use, exhibition or other means
- \*P\* document published prior to the international filing date but later than the priority date claimed

- \*T\* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- \*X\* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- \*Y\* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- \* & \* document member of the same patent family

Date of the actual completion of the international search

30 June 2009

Date of mailing of the international search report
