UNITED STATES PATENT OFFICE.

THOMAS EDWARD GRAFTON, OF NEW YORK, N. Y.

DESIGN FOR A WALL-TIE.

SPECIFICATION forming part of Design No. 33,426, dated October 23, 1900.

Application filed October 1, 1900. Serial No. 31,724. Term of patent 3½ years.

To all whom it may concern:

Be it known that I, THOMAS EDWARD GRAFTON, a citizen of the United States, residing at New York, in the county of New York and State of New York, have invented and produced a new and original Design for Wall-Ties, of which the following is a full, clear, and exact specification.

My design relates to wall-ties; and its object is to provide a wall-tie of serviceable and useful shape.

The design will be more fully described with reference to the accompanying drawings, in which—

Figure 1 is a plan view of the tie, and Fig. 2 is a side view of the same.

As shown in the drawings, the leading fea-

tures of the design comprise the straight middle portion 1, having formed on the opposite ends thereof the binding portions 3 and 4, the latter being of substantially triangular form.

Having thus described my invention, I declare that what I claim as new, and desire to secure by Letters Patent, is—

The design for a wall-tie as herein shown and described.

In testimony whereof I affix my signature in presence of two witnesses.

THOMAS EDWARD GRAFTON.

Witnesses:

C. V. EDWARDS,
GEO. W. HESS.
