(57) Abstract:	

The present invention relates to an insert block half (10) for sealing around a cable, pipe or wire. The insert block half comprises: a body (11) with a first (12) and a second end (13), a first side (14) intended to be arranged towards a substantially identical insert block half, and a semi-circular groove (15) arranged in said first side and extending between the first and second end; and a reinforcement element (21; 30) having a shape corresponding to the shape of the semi-cylindrical groove and arranged to enclose the groove
