(54) Title: SYSTEM, DEVICE AND METHOD FOR EXCHANGING ENERGY WITH AN ELECTRIC VEHICLE

FIG. 2b

(57) Abstract: The invention relates to a system for exchanging energy with an electric vehicle, in particular with a battery thereof, comprising, at least one energy exchange station, comprising, at least one port for exchanging energy with an energy source, at least one port for exchanging energy with a vehicle, at least one port for data communication with the vehicle, at least one port for data communication with a data processing device, a data processing device, comprising, at least one port for data communication with the energy exchange station, at least one port for data communication with at least one configuration device, at least one configuration device, comprising, at least one port for exchanging data with the data processing device; and means, such as a user interface, for editing configuration details. The invention further relates to a method and devices for exchanging energy with an electric vehicle.

A. CLASSIFICATION OF SUBJECT MATTER  
INV. B60L11/18  
ADD.

According to International Patent Classification (IPC) or to both national classification and IPC

## B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)  
B60L

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

EP0-Internal, WPI Data

## C. DOCUMENTS CONSIDERED TO BE RELEVANT

\* Special categories of cited documents :

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family
