(54) Title: A CASE FOR ENCLOSING AND REMAINING ATTACHED TO A TABLET-COMPUTING DEVICE

FIG. 4A

(57) Abstract: A case for enclosing and remaining attached to a tablet-computing device may include a rigid inner portion and an outer portion attached thereto. The case may be customized to accommodate a particular kind or type of tablet-computing device and may include an aperture aligned within the case to accommodate a feature of the inserted tablet-computing device. The case may be configured to elevate a tablet-computing device to an angled position relative to a planar position and/or maintain the tablet-computing device in the angled position. In some embodiments, the rigid inner portion may be removable from the case.

A. CLASSIFICATION OF SUBJECT MATTER

G06F 1/16(2006.01)i

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

G06F 1/16; E05C 19/06; B65D 85/00; F16M 11/02; F16M 11/06

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Korean utility models and applications for utility models
Japanese utility models and applications for utility models

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

eKOMPASS(KIPO internal) & Keywords: "electronic, tablet, case, stand"

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family
