(54) Titre : PORTE-GOBELET JETABLE DE CHARIOT D'ACHAT  
(54) Title: DISPOSABLE SHOPPING CART CUP HOLDER

## **Patent Application**

To the Commissioner of Patents, a patent is sought for the following item –  
"Disposable Shopping Cart Cup Holder".

The Disposable Shopping Cart Cup Holder is made to hold cups of coffees or other types of beverages inside a shopping cart.

Its dimensions are approximately 4" Wide X 8" Long X 3" Tall, but can be manufactured to adapt to the various shopping cart sizes. It is made out of recyclable cardboard with two separate circular openings at the top, which can hold up to two coffee cups or drink containers at a time. These two top openings can be of different sizes to hold various types of bottles or cups.

The cardboard is folded over and glued on one side to form its shape. It has slanted corners and can also have grooves on its sides to further decrease the risk of the beverages from falling over or sliding around in the shopping cart. It is intended to be placed in the top tray or baby seat inside the shopping cart. This product is recyclable, reusable and disposable.
