Wm. H. Carson & George Roberts. — of York. co. of Livingston — New York

Letters Patent

The Schedule referred to in these Letters Patent and making part of the same, containing a description in the words of the said William H. Carson, and George Roberts themselves of their improvement in the Cement for Cisterns &c.

To all to whom these Presents may come — Be it known that We William H. Carson & George Roberts of York, county of Livingston and State of New York have invented a new and useful invention, and that the following is a full and exact description thereof Viz. Nine Parts Sand, three parts Waterlime one part plaister Paris, and one quarter part Muriate of Soda Mia with water into a cement, to be applied to the surface of holes dug in the earth of any dimension for the purpose of holding water —

What we claim as our own invention and improvement is the addition of the Plaister of Paris and the Muriate of Soda to the other articles —
