(57) **CLAIM**

The ornamental design for a battery-powered pressure pump for liquid and lotion applicators, as shown and design.

DESCRIPTION

FIG. 1 illustrates a side perspective view of a battery-powered pressure pump for liquid and lotion applicators showing my new design;

FIG. 2 illustrates a side perspective view of a battery-powered pressure pump for liquid and lotion applicators showing a second embodiment of my new design;

FIG. 3 illustrates a top end view for both of the embodiments of FIGS. 1 and 2;

FIG. 4 illustrates a bottom plan view of both embodiments of FIGS. 1 and 2;

FIG. 5 illustrates, on an enlarged scale, a longitudinal sectional view of the embodiment of FIG. 1;

FIG. 6 illustrates a longitudinal exploded side view of FIG. 1;

FIG. 7 illustrates a perspective fragmentary view of the bottom end portion of FIG. 6;

FIG. 8 illustrates an exploded perspective longitudinal view of the components of FIG. 2;

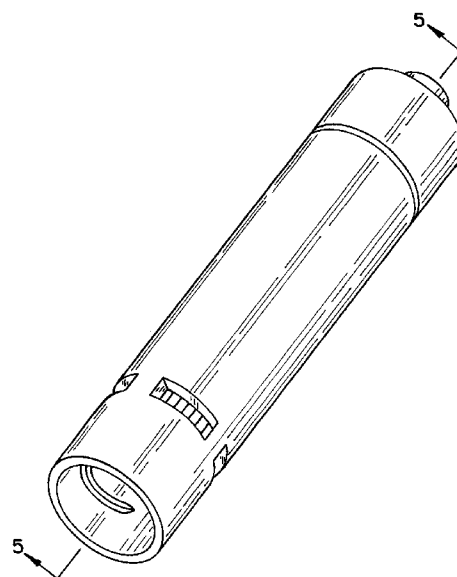

FIG. 9 illustrates an exploded perspective view illustrating the casing components of FIG. 6;

FIG. 10 is a detailed perspective view showing the battery of FIG. 6; and,

FIG. 11 is a detailed perspective view showing the cap portion of FIG. 6.

The casing portions of the embodiments of FIGS. 1 and 2 may be constituted of either an opaque, transparent or translucent material.
