UNITED STATES PATENT OFFICE.

JOSEPH FORSHEIM, OF NEW YORK, N. Y.

DESIGN FOR A BUCKLE-PLATE.

SPECIFICATION forming part of Design No. 28,722, dated May 31, 1898.

Application filed April 13, 1898. Serial No. 677,503. Term of patent 14 years.

To all whom it may concern:

Be it known that I, JOSEPH FORSHEIM, a citizen of the United States, and a resident of New York, in the county and State of New York, have invented and produced a new and original Design for a Buckle-Plate, of which the following is a specification, reference being had to the accompanying drawings, forming a part thereof.

10 The essential features of my design consist in a buckle-plate having its ends developed into looped form and tapered in a direction widthwise of the plate and one edge of the body of the plate being turned at an angle to the body of the plate, the body of the plate

15 having an opening therethrough.

In the accompanying drawings, Figure 1 is a view of the plate in plan. Fig. 2 is a

view in edge elevation, and Fig. 3 is an end view.

A represents the body portion, provided with an opening *a* therethrough.

B B' represent the looped-form ends, and C represents the turned edge of the body portion.

What I claim is—

The design for a buckle-plate, substantially as herein shown and described.

In testimony that I claim the foregoing as my invention I have signed my name, in presence of two witnesses, this 12th day of April, 1898.

JOSEPH FORSHEIM.
