(54) Title: MOMENTARY SWITCH INTEGRATED IN PACKAGING OF AN ARTICLE

(57) Abstract: The present invention relates to a switch (290) for use with an article formed from paperboard. The article includes a first panel (220a) and a second panel (222a). The first panel and the second panel each have a sliding surface facing one another. The first and the second panels are in sliding relation to one another between a first position and a second position. The switch comprises a conductive pathway (272a) disposed on the sliding surface of the first panel (220a) and a first contact surface (268a) is disposed on the sliding surface of the second panel (222a) and a second contact surface (268b) is disposed on the sliding surface of the second panel. The second contact surface is in spaced relation to the first contact surface. The conductive pathway of the first panel is in spaced relation to at least one of the first and second contact surfaces of the second panel when the first and second panels are in the first position. The conductive pathway bridges the first and second contact surfaces when the first and second panels are in the second position.

# INTERNATIONAL SEARCH REPORT

International application No  
PCT/US2006/047278

**A. CLASSIFICATION OF SUBJECT MATTER**  
INV. B65D83/04 A61J1/03 A61J7/04

According to International Patent Classification (IPC) or to both national classification and IPC

**B. FIELDS SEARCHED**

Minimum documentation searched (classification system followed by classification symbols)  
B65D A61J B42D

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

EPO-Internal

**C. DOCUMENTS CONSIDERED TO BE RELEVANT**

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	US 4 286 399 A (FUNAHASHI MASAO ET AL) 1 September 1981 (1981-09-01) the whole document	1, 2, 12, 24, 25

A	----- -/--	1-6, 42

Further documents are listed in the continuation of Box C.

See patent family annex.

\* Special categories of cited documents :

- \*A\* document defining the general state of the art which is not considered to be of particular relevance
- \*E\* earlier document but published on or after the international filing date
- \*L\* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- \*O\* document referring to an oral disclosure, use, exhibition or other means
- \*P\* document published prior to the international filing date but later than the priority date claimed

- \*T\* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- \*X\* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- \*Y\* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- \* & \* document member of the same patent family
