(54) Title: TECHNIQUES FOR TYPOGRAPHIC ELECTRONIC PAGINATION

FIGURE 1

(57) **Abstract:** Techniques for typographic electronic pagination are disclosed. In one embodiment, the techniques may be realized as an apparatus for typographic electronic pagination. In one implementation of the apparatus, the apparatus comprises at least one non-transitory processor readable storage medium with instructions stored on the at least one medium. The instructions are configured to be readable by at least one non-transitory processor and cause the at least one processor to operate. The processor operates so as to receive a plurality of articles, generate an index page based on relative visual weightings of the plurality of articles and a size of a canvas adapted to contain the index page, and generate a page layout for the plurality of articles based on page layout weightings and the size of canvas.

INTERNATIONAL SEARCH REPORT

A. CLASSIFICATION OF SUBJECT MATTER
INV. G06F17/21
ADD.

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
G06F

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

EPO-Internal, WPI Data

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.

Further documents are listed in the continuation of Box C.

See patent family annex.

* Special categories of cited documents :

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family
