A graphical user interface adapted to control a conference call and configured for display on a display screen of an electronic device is disclosed. The graphical user interface comprises at least three user selectable display spaces configured for simultaneous display on the display screen of the electronic device, each space adapted to receive a user selection, wherein a first user selectable display space is configured to display a list or a portion of the list of all groups defined in an address book of the electronic device, a second user selectable display space is configured to display a list or a portion of the list of all members of a group selected from the first user selectable display space, and a third user selectable display space is configured to display members selected for the conference call from the first or second or both user selectable display spaces.
INTERNATIONAL SEARCH REPORT

A. CLASSIFICATION OF SUBJECT MATTER

INV. H04N7/15   G06F3/0482   H04L12/18
ADD.

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched: (classification system followed by classification symbols)

H04N   G06F   H04L

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

EPO-Internal, WPI Data

C. DOCUMENTS CONSIDERED TO BE RELEVANT

[X] Further documents are listed in the continuation of Box C. [X] See patent family annex.

* Special categories of cited documents:

**A** document defining the general state of the art which is not considered to be of particular relevance

**E** earlier application or patent but published on or after the international filing date

**L** document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

**O** document referring to an oral disclosure, use, exhibition or other means

**P** document published prior to the international filing date but later than the priority date claimed

**T** later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

**X** document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

**Y** document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

**A** document member of the same patent family

Date of the actual completion of the international search

30 July 2014

Date of mailing of the international search report
