Anne Sophia Froehlich, of Philadelphia, Pennsylvania.

Design for a Window-Guard.

Specification forming part of Design No. 27,401, dated July 20, 1897.
Application filed June 9, 1897. Serial No. 640,073. Term of patent 14 years.

To all whom it may concern:

Be it known that I, Anne Sophia Froehlich, a citizen of the United States, residing at the city and county of Philadelphia and State of Pennsylvania, have invented and produced a certain new and original Design for Window-Guards, of which the following is a specification, reference being had to the accompanying drawings.

Figure 1 is a front perspective view of a window-guard, showing my new design; Fig. 2, a plan view thereof.

As shown in the drawings, the leading feature of my design consists of a framework composed of an upper frame-piece a and a lower frame-piece b and side pieces c c, the end portions of said top and bottom frame-pieces being bent outwardly at an angle, and the space included by said framework is filled in with an open-work or netting d. There are also hook-like projections e e on the sides, respectively, of the end frame-pieces c c.

Having described my invention, I claim as new and desire to secure by Letters Patent—

The design for a window-guard, as herein shown and described.

In testimony whereof I have hereunto affixed my signature in the presence of two subscribing witnesses.

Anne Sophia Froehlich.

Witnesses:

Walter C. Pusey,
Joshua Pusey.
