(71) Applicant (for all designated States except US):  
SOLAROR [IL/IL]; 1 St Hazait St, 20306-NESHER (IL).

(72) Inventor; and

(75) Inventor/Applicant (for US only):  
AHARON, Oren [IL/IL]; 4 Kil Hahofra St., 34653 Haifa (IL).

(74) Agent:  
TSIVION, Yoram; P. O. Box 3148, 38900 Caesarea (IL).

(81) Designated States (unless otherwise indicated, for every kind of national protection available):  

(84) Designated States (unless otherwise indicated, for every kind of regional protection available):  

(88) Date of publication of the international search report:  
12 February 2009

(54) Title:  
METHOD AND APPARATUS FOR CONCENTRATING SOLAR ENERGY

(57) Abstract:  
A method and its implementation for solar radiation low concentrating device based on a novel mirrors and solar cells arrangement to generate solar power with an increased efficiency. The method will enable building of large see-through and opaque efficient solar collectors at very competitive pricing based on collecting direct sun energy while optionally allowing normal daylight to pass through.
INTERNATIONAL SEARCH REPORT

A. CLASSIFICATION OF SUBJECT MATTER
IPC: H01L 31/042 (2006.01)

USPC: 136/246
According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
U.S. : 136/246

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

C. DOCUMENTS CONSIDERED TO BE RELEVANT

☐ Further documents are listed in the continuation of Box C.  ☐ See patent family annex.

☐ Special categories of cited documents:

“A” document defining the general state of the art which is not considered to be of particular relevance

“E” earlier application or patent published on or after the international filing date

“L” document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

“O” document referring to an oral disclosure, use, exhibition or other means

“P” document published prior to the international filing date but later than the priority date claimed

“T” later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

“X” document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

“Y” document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

“&” document member of the same patent family

INTERNATIONAL SEARCH REPORT

Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:
   because they relate to subject matter not required to be searched by this Authority, namely:

2. ☑ Claims Nos.: 8-14
   because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
   These claims are drawn to methods, but there is no recited method step in any of the claims. Since no method steps are explicitly required, no meaningful search can be performed.

3. ☑ Claims Nos.: 3, 6, 7, 10, 13, and 14
   because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

1. ☐ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.

2. ☐ As all searchable claims could be searched without effort justifying additional fees, this Authority did not invite payment of any additional fees.

3. ☐ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:

4. ☐ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Remark on Protest ☐ The additional search fees were accompanied by the applicant’s protest and, where applicable, the payment of a protest fee.

☐ The additional search fees were accompanied by the applicant’s protest but the applicable protest fee was not paid within the time limit specified in the invitation.

☐ No protest accompanied the payment of additional search fees.
