(54) Title: METHOD OF PRODUCING A COMPOSITION FROM AN OLEOGEL AND AN AQUEOUS GEL AND THE COMPOSITION

(57) Abstract: A method for producing a bigel, the method comprising: (a) providing an oleogel comprising at least one oily agent gelled with at least one cellulose polymer; (b) providing an aqueous gel comprising at least one component whose viscosity is pH dependent, such as a carbomer; (c) mixing the oleogel and the aqueous gel together to form a bigel; and (d) subsequently adjusting the viscosity of the bigel under high flow and low shear stirring to obtain a bigel of a desired viscosity.

* Special categories of cited documents :

"A" document defining the general state of the art which Is not considered to be of particular relevance

"E" earlier document but published on or after the international filing date

"L" document which may throw doubts on priority claim(ε) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the Invention

"X" document of particular relevance; the claimed inventbn cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed Invention cannot be considered to involve an inventive step when the document is combined with one or more other such docu¬ments, such combination being obvious to a person skilled In the art!
