(57) **CLAIM**

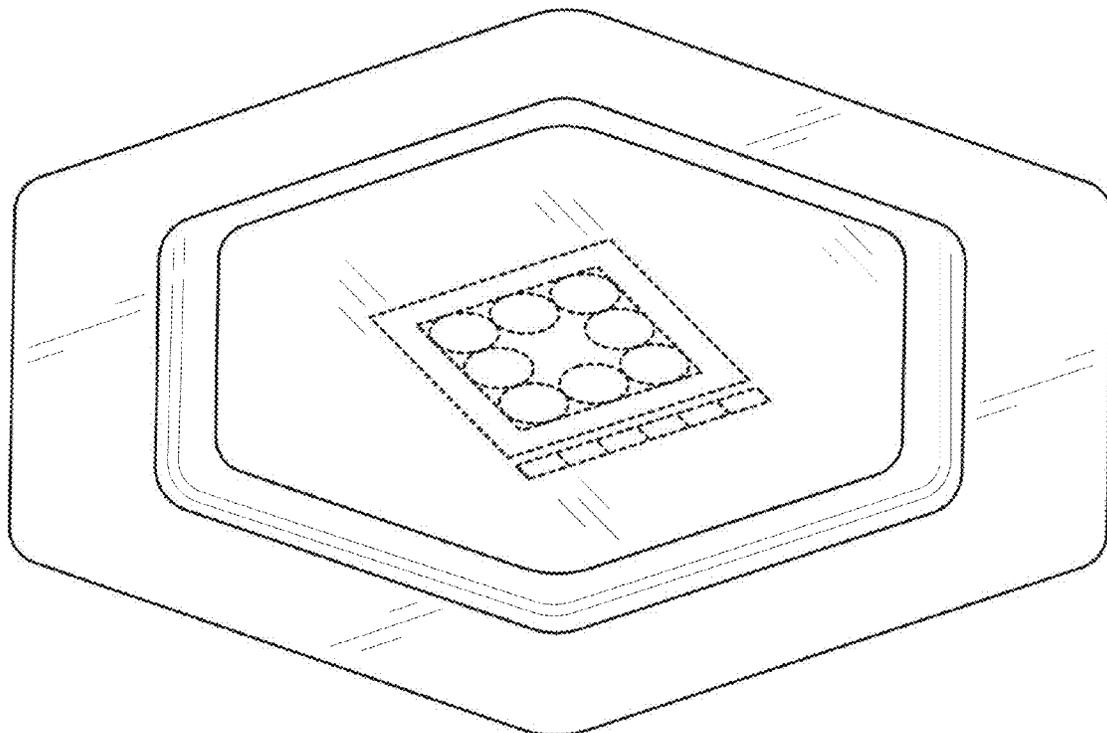

The ornamental design for a transdermal electronic skin patch as shown and described.

DESCRIPTION

FIG. 1 is an upper perspective view of my design; FIG. 2 is an orthogonal first end view of my design, of which the orthogonal second end view is a mirror image; FIG. 3 is an orthogonal right side view of my design, of which the orthogonal left side view is a mirror image; FIG. 4 is a top plan view of my design; and, FIG. 5 is a bottom plan view of my design.

In the drawings, the broken lines show portions of a transdermal electronic skin patch that form no part of the claim. All other surfaces or portions of the transdermal electronic skin patch not shown in the figures or otherwise described in the specification form no part of the claimed design.
