(54) **Locking stay device for windows**

(57) Locking stay device for connecting inside and outside window sashes (101, 100) of a window, comprising:
 - a base (1) having one end connected with the outside window sash and another end arranged with a connector

which can pivot in relation to said base;
 - a bar shaped locking element (2) whose sides have notches along its length, and whose head is pivotally connected with said connector;
 - a support (4) connected with said inside window sash, having stops for said notches of the locking element.
