57) CLAIM

The ornamental design for screw with elongate head, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the screw with elongated head. FIG. 2 is a side view thereof showing two flat sides of the elongated head.

FIG. 3 is a side view thereof with the screw rotated to show three flat sides of the elongated head.

FIG. 4 is a top view thereof; and,

FIG. 5 is a bottom view thereof.

The broken line showing the shaft area is included for the purpose of illustrating portions of the article and form no part of the claimed design.
