(54) Title: METHODS AND SYSTEMS FOR CAPTURING, PROCESSING, MANAGING AND/OR EVALUATING MULTIMEDIA CONTENT OF OBSERVED PERSONS PERFORMING A TASK

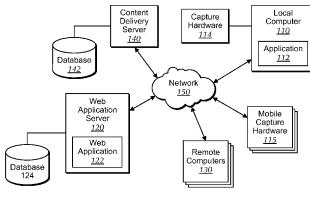

FIG. 1

(57) Abstract: Several embodiments provide systems and methods relating to observations of persons performing a task to be evaluated. In one embodiment, a computer implemented method for use in evaluating performance of one or more observed persons, the method comprises: providing a comment field on a display device for a first user to enter free-form comments related to an observation of one or more observed persons performing a task to be evaluated; receiving a free-form comment entered by the first user in the comment field and relating to the observation; storing the free-form comment entered by the first user on a computer readable medium accessible by multiple users; providing a share field to the user for the user to set a sharing setting; and determining whether to display the free-form comment to a second user when the second user accesses stored data relating to the observation based on the sharing setting.

A. CLASSIFICATION OF SUBJECT MATTER

G06Q 50/00(2006.01)i, G06F 15/16(2006.01)i

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols) G06Q 50/00; G09B 5/14; H04N 7/18; G09B 19/00; G09B 7/00; H04N 5/228; G06F 15/16

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched Korean utility models and applications for utility models

Japanese utility models and applications for utility models

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used) eKOMPASS(KIPO internal) & Keywords: remote, survey, education

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.

- * Special categories of cited documents:
- "A" document defining the general state of the art which is not considered to be of particular relevance
- 'E" earlier application or patent but published on or after the international
- L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of citation or other special reason (as specified)
- 'O" document referring to an oral disclosure, use, exhibition or other
- "P" document published prior to the international filing date but later than the priority date claimed
- "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
- "&" document member of the same patent family
