The ornamental design for a cup holder bluetooth speakerphone system, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a cup holder bluetooth speakerphone system showing my new design; FIG. 2 is a front view thereof; FIG. 3 is a rear view thereof; FIG. 4 is a top view thereof; FIG. 5 is a bottom view thereof; FIG. 6 is a side view thereof, the opposite side view being a mirror image; and, FIG. 7 is a cross-sectional view along line 7-7 in FIG. 2. The broken lines in the drawings illustrate environmental material that forms no part of the claimed design. The characteristic feature of the design resides in the external body being clear and the internal body, inside the external body, being opaque.
