INCOMPLETE SEARCH

The Search Division considers that the present application, or one or more of its claims, does/do not comply with the EPC so that only a partial search (R. 62a, 63) has been carried out.

Claim(s) completely searchable:1-11

Claim(s) not searched:12-15

Reason for the limitation of the search:

[0001] The present application contains 15 claims, of which two are independent. There is no clear distinction between the independent claims because of overlapping scope. The claims are drafted in such a way that the claims as a whole do not comply with the provisions of clarity and conciseness in Article 84 EPC, as it is particularly burdensome for a skilled person to establish the subject-matter for which protection is sought.

[0002] In reply to the invitation to indicate the claims on which the search is to be based, the applicant failed to supply the requested indication in due time. Thus, the search report has been drawn up on the basis of the first independent claim (Rule 62a(1) EPC), namely on claim 1 and on its dependent claims 2-11.

The supplementary search report has been based on the last set of claims valid and available at the start of the search.

INCOMPLETE SEARCH

[0003] The applicant's attention is drawn to the fact that the application will be further prosecuted on the basis of subject-matter for which a search has been carried out and that the claims should be limited to that subject-matter at a later stage of the proceedings (Rule 62a(2) EPC).

The supplementary search report has been based on the last set of claims valid and available at the start of the search.
