(57) **CLAIM**

The ornamental design for a gate, as shown and described.

DESCRIPTION

FIG. 1 is an isometric view of the gate of the present invention in a retracted position;

FIG. 2 is a rear elevational view thereof;

FIG. 3 is a right side elevational view thereof;

FIG. 4 is a front elevational view thereof;

FIG. 5 is a left side elevational view thereof;

FIG. 6 is a top plan view thereof;

FIG. 7 is a bottom plan view thereof;

FIG. 8 is an isometric view of the present invention in an expanded position;

FIG. 9 is a rear elevational view thereof in the expanded position;

FIG. 10 is a front elevational view thereof in the expanded position;

FIG. 11 is a top plan view thereof in the expanded position;

FIG. 12 is a bottom plan view thereof in the expanded position;

FIG. 13 is a further isometric view of the gate of the present invention in a retracted position;

FIG. 14 is a rear elevational view thereof;

FIG. 15 is a right side elevational view thereof;

FIG. 16 is a front elevational view thereof;

FIG. 17 is a left side elevational view thereof;

FIG. 18 is a top plan view thereof;

FIG. 19 is a bottom plan view thereof;

FIG. 20 is an isometric view of the present invention in an expanded position;

FIG. 21 is a rear elevational view thereof in the expanded position;

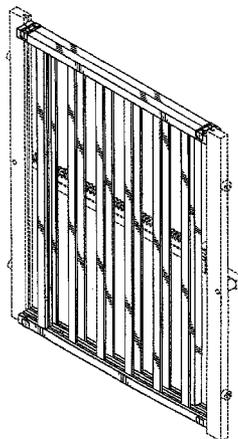

FIG. 22 is a front elevational view thereof in the expanded position;

FIG. 23 is a top plan view thereof in the expanded position; and,

FIG. 24 is a bottom plan view thereof in the expanded position.

The broken line showing similar adjacent barriers in FIG. 1 is included for the purpose of illustrating a portion of the barrier that forms no part of the claimed design.
