(54) Abstract Title: **System and method for remote document retrieval**

(57) A system and method for document retrieval are provided. The present method comprises the steps of receiving a request email message from a requesting device (133/153) via a network (103/106/109), the request email message embodying a document request, automatically generating a response email message with at least one document (189) attached thereto in response to the document request, and, automatically transmitting the response email message to a destination address on the network (103/106/109).
