(57) **CLAIM**

The ornamental design for a display screen with an animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image in a first sequence of a display screen with an animated graphical user interface, showing our new design;

FIG. 2 is a front view of a second image in the first sequence;

FIG. 3 is a front view of a third image in the first sequence;

FIG. 4 is a front view of a fourth image in the first sequence;

FIG. 5 is a front view of a fifth image in the first sequence;

FIG. 6 is a front view of a first image in a second sequence;

FIG. 7 is a front view of a second image in the second sequence;

FIG. 8 is a front view of a third image in the second sequence;

FIG. 9 is a front view of a fourth image in the second sequence;

FIG. 10 is a front view of a fifth image in the second sequence;

FIG. 11 is a front view of a first image in a third sequence;

FIG. 12 is a front view of a second image in the third sequence;

FIG. 13 is a front view of a third image in the third sequence;

FIG. 14 is a front view of a fourth image in the third sequence;

FIG. 15 is a front view of a fifth image in the third sequence;

FIG. 16 is a front view of a first image in a fourth sequence;

FIG. 17 is a front view of a second image in the fourth sequence;

FIG. 18 is a front view of a third image in the fourth sequence;

FIG. 19 is a front view of a fourth image in the fourth sequence; and,

FIG. 20 is a front view of a fifth image in the fourth sequence.

A first example of the appearance of the animated user interface sequentially transitions between the images shown in the sequence of FIGS. 1-5. A second example of the

(Continued)

appearance of the animated user interface sequentially transitions between the images shown in the sequence of FIGS. 6-10. A third example of the appearance of the animated user interface sequentially transitions between the images shown in the sequence of FIGS. 11-15. A fourth example of the appearance of the animated user interface sequentially transitions between the images shown in the sequence of FIGS. 16-20. The process or period in which one image transitions to another image forms no part of the claimed design. The central broken line circle illustrates a display screen and forms no part of the claimed design. The broken lines within the broken line circle illustrate portions of the graphical user interface that form no part of the claimed design. The remaining broken lines, illustrating environmental structure, form no part of the claimed design.
