(54) Title: METHODS AND APPARATUSES FOR FINANCING AND MARKETING A CREATIVE WORK

(57) Abstract: The present invention is directed to a system and method for raising financing and/or revenue by artist for a project, where the project may be a creative work of the artist. The method including registering, by at least one artist, with a centralized database, at least one or more projects, offering, by the at least one artist, an entitlement related to the artist in exchange for capital for the project of the artist. The method and system may also include searching, by an interested party, the centralized database, for the least one artist, registering, by the interested party, with the centralized database and accepting the offer by the interested party for the entitlement related to the project. The capital may then be forwarded to the artist and the entitlement provided to the interested party.

 According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED
 Minimum documentation searched (classification system followed by classification symbols)
 U.S. :

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.

Further documents are listed in the continuation of Box C.

See patent family annex.

Special categories of cited documents:	Symbol
"A" document defining the general state of the art which is not considered to be of particular relevance	"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
"E" earlier application or patent published on or after the international filing date	"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)	"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
"O" document referring to an oral disclosure, use, exhibition or other means	"&" document member of the same patent family
"P" document published prior to the international filing date but later than the priority date claimed
