(54) **Removable anchor block**

(57) Removable anchor block (1) for insertion into the ground for anchoring an object, comprising a plate-shaped element (2) having two or more fixing points (3) for fixing pulling cables on the plate-shaped element (2). The anchor block (1) is characterized in that at least two of the two or more fixing points (3) are provided substantially evenly distributed around the circumference of the

plate-shaped element (2), and in that the two or more fixing points (3) are designed to be connected directly or indirectly by means of the pulling cables to the object to be anchored.

Method for inserting such a plate-shaped anchor block into the ground as well as a method for removing such an anchor block.
