CLAIM

The ornamental design for an alarm module for respiratory pressure treatment apparatus, as shown and described.

DESCRIPTION

FIG. 1 is a top, left and rear side perspective view of a first embodiment of the module, in accordance with the present invention;

FIG. 2 is a top, right and front side perspective view of the module embodiment of FIG. 1;

FIG. 3 is a left side elevation view of the module embodiment of FIG. 1;

FIG. 4 is a right side elevation view of the module embodiment of FIG. 1;

FIG. 5 is a front elevation view of the module embodiment of FIG. 1;

FIG. 6 is a rear elevation view of the module embodiment of FIG. 1;

FIG. 7 is a top plan view of the module embodiment of FIG. 1; and,

FIG. 8 is a bottom plan view of the module embodiment of FIG. 1.

The broken lines are included for illustrative purposes only and as such form no part of the claimed invention.
