(54) Title: GAMING DEVICE HAVING MULTIPLE BONUSES ACTING INDEPENDENTLY OR SIMULTANEOUSLY

(57) Abstract: A multiple bonus modifier game (10) includes a base game and two or more base award modifiers operating independently or simultaneously of each other (i.e., the two or more base award modifiers operate independently of each other or in conjunction with each other to modify a base game award). The multiple bonus modifier game (10) comprises a base game (20) that includes a plurality of spinning reels, a first base award modifier (30) that includes at least one spinning reel, and a second base award modifier (40) that includes at least one additional spinning reel. The outcome of the spinning reels in the base game (20) defines a base game award (25). The outcome of the spinning reel in the first base award modifier (30) defines a first modifier award (35), which adjusts the base game award. The outcome of the additional spinning reel in the second base award modifier (40) defines a second modifier award (45), which potentially adjusts the combined base game award (25) and first modifier award (35), if both awards are given.
