(54) Title: FOOT CARE DEVICE AND METHOD

(57) Abstract: A device for removing skin from a foot of a user is provided. The device includes a base having a first surface configured for placement against a sole of a foot and an element having an abrasive surface suitable for skin removal. The element is attachable to said base in a manner which enables the user to secure said base against said sole of a first foot and rub a second foot against said abrasive surface.
