CLAIM

The ornamental design for the “clear single laminate transaction or access card with wood veneer layer,” as shown and described.

DESCRIPTION

FIG. 1 is a perspective front view of the clear single laminate transaction or access card with wood veneer layer;
FIG. 2 is a front plan view of the clear single laminate transaction or access card with wood veneer layer;
FIG. 3 is a back plan view of the clear single laminate transaction or access card with wood veneer layer;
FIG. 4 is a side end view of the clear single laminate transaction or access card with wood veneer layer, the other side end view being identical to the side end view of FIG. 4; and,
FIG. 5 is a top end view of the clear single laminate transaction or access card with wood veneer layer, the bottom end view being identical to the top end view of FIG. 5.

The claimed design is for a transaction or premises access card having a clear laminate layer on one side of a wood veneer layer, wherein the natural wood grain of the wood veneer layer is visible on both sides of the card. The features shown in broken lines in FIG. 3 depict environmental subject matter only and form no part of the claimed design.
