(57) **CLAIM**

The ornamental design for a display screen with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. **1** is a front view of the first image in a sequence for a display screen with transitional graphical user interface showing my new design;

FIG. **2** is a front view of the second image thereof;

FIG. **3** is a front view of an enlarged view of the claimed region of the first image of the sequence shown in FIGS. **1-2**; and,

FIG. **4** is a front view of the second image thereof.

The appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. **1-2** and FIGS. **3-4**, respectively. The process or period in which one image transitions to another forms no part of the claimed design. The dot-dash lines illustrate the bounds of the claim and form no part of the claimed design. The dash-dash line showing of a device in FIGS. **1** and **2** represents environment and forms no part of the claimed design. The remaining broken lines illustrate portions of the display device with transitional graphical user interface that form no part of the claimed design.
