UNITED STATES PATENT OFFICE.

GEORGE E. RHODES, OF SHREVEPORT, LOUISIANA.

DESIGN FOR A WATCH-CHARM, &c.

SPECIFICATION forming part of Design No. 23,857, dated December 11, 1894.

Application filed January 22, 1894. Serial No. 497,714. Term of patent 7 years.

To all whom it may concern:

Be it known that I, GEORGE E. RHODES, a citizen of the United States, and a resident of Shreveport, in the parish of Caddo and State of Louisiana, have invented and produced a new and original Design for Watch-Charms or Pendant Ornaments or Locketts for Watch-Chains, of which the following is a specification, reference being had to the accompanying drawing, illustrating the same.

In the drawing my design is illustrated in a perspective view showing a watch charm or locket having the particular ornamentation hereinafter described, the whole constituting my invention.

The distinguishing characteristic of my design resides in the peculiar monogrammatic and other ornamentation of a locket or charm as represented in the accompanying drawing and described in the present specification.

Referring to the drawing, A denotes the body of the locket. This is made rectangular in shape as shown, and the corners are provided with the ornamental pieces B shaped and constructed as represented in the drawing.

C indicates a central ornamentation on the side of the locket, the same consisting in a monogram composed of the letters "T P A" of the form shown in the drawing and entwined in the manner represented.

D is the representation of a handle applied to the side edge of the locket above the monogram.

E indicates an ornamentation representing a catch or fastening for the locket, and F denotes a line indicating the real or a supposed meeting point for the two halves of the locket.

Having thus fully described my configuration or design, what I claim to have invented and produced, and desire to secure by Letters Patent, is—

The design for a watch charm, or pendant locket, substantially as herein shown and described.

In testimony that I claim the above I hereto affix my signature in the presence of two witnesses.

GEORGE E. RHODES.
