(54) Title: METHOD AND SYSTEM OF PROVIDING USER INTERFACE

(57) Abstract: Method and system of providing a user interface. The method and system relating to the user of a media device to support displaying video and the user interface in a video rich fashion. The method and system may provide dynamic operations which provide increased functionality and interactivity, such as to provide a multi-functional user interface and navigation portal which provides aesthetically pleasing and functional mosaics of video, advertisements, textual and graphical displays, and other motion or non-motion based displays.

☐ Further documents are listed in the continuation of Box C.

☐ See patent family annex.

\* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T"

later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X"

document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y"

document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&"

document member of the same patent family
