# UNITED STATES PATENT OFFICE.

FREDERICK KAMPFE, RICHARD KAMPFE, AND OTTO KAMPFE, OF BROOKLYN, NEW YORK.

## DESIGN FOR A RAZOR-HANDLE.

SPECIFICATION forming part of Design No. 23,699, dated October 16, 1894.

Application filed September 6, 1894. Serial No. 522,301. Term of patent 7 years.

*To all whom it may concern:*

Be it known that we, FREDERICK KAMPFE, RICHARD KAMPFE, and OTTO KAMPFE, citizens of the United States, and residents of Brooklyn, in the county of Kings and State of New York, have invented a new and original Design for Safety-Razor Handles, of which the following is a specification.

In the accompanying drawing a perspective view of a razor handle of our new and original design is shown.

The leading features of our new and original design for safety razor handles are stars projecting from the surface of the handle throughout the length of the same and a milled head at the upper end of the handle.

In the drawing A is the handle; B the stars, on the outer surface of the handle.

D. is the milled head at the upper end of the handle and E a spirally beaded portion on said head.

Having thus fully described our invention, what we claim as new, and desire to secure by Letters Patent, is—

The design for a razor handle, substantially as herein shown.

In testimony that we claim the foregoing as our invention we have signed our names, in presence of two witnesses, this 4th day of September, 1894.

FREDERICK KAMPFE.
RICHARD KAMPFE.
OTTO KAMPFE.
