

## ABSTRACT

### METHOD AND DEVICE FOR APPLICATION OF A LABEL TO AN OBJECT

A method and a device for application of a label to an object, comprising: moving the object from a storing position to a labeling position; back-feeding and printing a label arranged at a continuous liner; moving the liner across a peeling edge, whereby the label is peeled off from the liner; transferring the label from the liner to the object; and removing the object from the labeling position to a removal position.
