Seating unit for aircraft

1.1 is a front right perspective view of the first embodiment of a seating unit for aircraft showing our new design;

1.2 is a top view of the design shown in view 1.1;

1.3 is a bottom view of the design shown in view 1.1;

1.4 is a front view of the design shown in view 1.1;

1.5 is a back view of the design shown in view 1.1;

1.6 is a side view of the design shown in view 1.1;

1.7 is a side view of the design shown in view 1.1;

1.8 is a perspective view of the design shown in view 1.1;

2.1 is a front right perspective view of the second embodiment of a seating unit for aircraft showing our new design;

2.2 is a back right perspective view of the design shown in view 2.1;

2.3 is a side view of the design shown in view 2.1;

2.4 is a side view of the design shown in view 2.1;

2.5 is a front view of the design shown in view 2.1;

2.6 is a back view of the design shown in view 2.1;

2.7 is a top view of the design shown in view 2.1; and

2.8 is a bottom view of the design shown in view 2.1.

The broken lines show portions of the seating unit for aircraft that form no part of the claimed design.
