(57) **CLAIM**

The ornamental design for an attachable smartphone camera, as shown and described.

**DESCRIPTION**

FIG. 1 is a front elevational view of an attachable smartphone camera.

FIG. 2 is a rear elevational view thereof.

FIG. 3 is a right side elevational view thereof, showing the lens in a retracted position.

FIG. 4 is a right side elevational view thereof, showing the lens in an extended position.

FIG. 5 is a left side elevational view thereof, showing the lens in a retracted position.

FIG. 6 is a left side elevational view thereof, showing the lens in an extended position.

FIG. 7 is a top plan view thereof, showing the lens in a retracted position.

FIG. 8 is a top plan view thereof, showing the lens in an extended position.

FIG. 9 is a bottom plan view thereof, showing the lens in a retracted position.

FIG. 10 is a bottom plan view thereof, showing the lens in an extended position.

FIG. 11 is a front elevational view thereof, shown in condition of use with a smartphone disclosed in broken lines to illustrate an environment.

FIG. 12 is a rear elevational view thereof, shown in condition of use with a smartphone disclosed in broken lines to illustrate an environment; and,

FIG. 13 is a front perspective view thereof, shown in condition of use with a smartphone disclosed in broken lines to illustrate an environment.

The broken lines depict portions of an attachable smartphone camera in which the design is embodied that form no part of the claimed design. The broken lines showing a smartphone in FIGS. 11-13 represent environmental structure and form no part of the claimed design.
