(54) Title: METHOD FOR MAGNIFYING AND EDITING OF A PORTION OF AN IMAGE

(57) Abstract: In a method and computer program for magnifying and modifying a portion of an image, the magnified portion of the image is located so as to preserve its visual context within the image. In an alternative embodiment, the visual context for the magnified portion of the image is indicated by visual cues shown in the image and the ability to change the portion of the image that is magnified.

\* Special categories of cited documents :

- \*A\* document defining the general state of the art which is not considered to be of particular relevance
- \*E\* earlier document but published on or after the international filing date
- \*L\* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- \*O\* document referring to an oral disclosure, use, exhibition or other means
- \*P\* document published prior to the international filing date but later than the priority date claimed

\*T\* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

\*X\* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

\*Y\* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.

\*Z\* document member of the same patent family
