(54) Title: A METHOD FOR IMPROVING PENETRATION OR LONG TERM ADHESION OF COMPOSITIONS TO DENTAL
TISSUES AND COMPOSITIONS USABLE IN SAID METHOD

(57) Abstract: This invention concerns a method of improving penetration of compositions to dentin, enamel, dental pulp or cement
and dental compositions for restoration or decoration of teeth, for use in pulp medication comprising, for root canal disinfection
and/or obturation and for desensitizing. This invention also concerns uses of DMSO for improving the bond strength of dental com-
position and in preparing dental compositions. Further the invention concerns a new method of treating teeth so that penetration of
components is increased.

INTERNATIONAL SEARCH REPORT

International application No
PCT/FI2012/050422

A. CLASSIFICATION OF SUBJECT MATTER
INV. A61K6/00
ADD.

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
A61K

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

EPO-Internal, WPI Data, CHEM ABS Data

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	US 5 866 629 A (SANTERRE PAUL JOSEPH [CA] ET AL) 2 February 1999 (1999-02-02) the whole document	1-9, 14-16,20
X	US 2007/009449 A1 (KANCA JOHN A III [US] KANCA III JOHN A [US]) 11 January 2007 (2007-01-11) page 1, paragraph 2 page 2, paragraph 17 - paragraph 21 page 5, paragraph 59 claims	1-8,15, 16,20

Further documents are listed in the continuation of Box C.

See patent family annex.

* Special categories of cited documents :

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family

Date of the actual completion of the international search
