---

**(57) Abstract:** A safety hat for use by construction workers is disclosed. The safety hat is fabricated from a hard plastic type material or other equivalent impact resistant materials. The safety hat is in the general shape of existing baseball type caps. The safety hat has a hollow brim portion to receive the brim of the typical soft baseball cap and thereby secure the safety hat to the baseball cap so that the safety hat fits securely and comfortably on the user's head.

**A. CLASSIFICATION OF SUBJECT MATTER****A42B 1/08(2006.01)i, A42B 3/00(2006.01)i, A63B 71/10(2006.01)i, A42B 3/12(2006.01)i**

According to International Patent Classification (IPC) or to both national classification and IPC

**B. FIELDS SEARCHED**

Minimum documentation searched (classification system followed by classification symbols)

A42B 1/08; A42B 1/06; A42B 1/18; A42C 5/00; A42B 3/00; A45C 11/02; A42B 1/24; A63B 71/10; A42B 3/12

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Korean utility models and applications for utility models

Japanese utility models and applications for utility models

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

eKOMPASS(KIPO internal) &amp; Keywords:brim, visor, safety hat, baseball cap, protect, head, hollow interior slot

Further documents are listed in the continuation of Box C.

See patent family annex.

\* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&amp;" document member of the same patent family
