(54) **Title:** PLATFORM FOR RAPID DEVELOPMENT OF APPLICATIONS

FIG. 4

(57) **Abstract:** Various embodiments are directed towards a platform for rapid development of applications. A data processing application may be generated by applying templates, work streams, change entries, and user modifications to generate data processing applications. In at least one of the various embodiments, the applications may be generated based project initial instructions and by receiving and processing example data in combination with templates, change entries, and work streams. Further, in at least one of the various embodiments, modifications made to the generated applications may be preserved as change entries associated with a work stream. In at least one of the various embodiments, separate applications may be generated based on the work streams and/or change streams of other applications. In at least one of the various embodiments, if a generated application may be modified a new revision number may be associated with the modified version of the application.

A. CLASSIFICATION OF SUBJECT MATTER**G06F 9/44(2006.01)i, G06F 17/00(2006.01)i, G06Q 10/06(2012.01)i**

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

G06F 9/44; G03C 5/18; G06F 3/00

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Korean utility models and applications for utility models

Japanese utility models and applications for utility models

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

eKOMPASS(KIPO internal) & Keywords: application, development, platform

C. DOCUMENTS CONSIDERED TO BE RELEVANT

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family
