(57) **CLAIM**

We claim, the ornamental design for a portable information terminal, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a portable information terminal showing our new design;

FIG. 2 is a rear view thereof;

FIG. 3 is a right side view thereof;

FIG. 4 is a left side view thereof;

FIG. 5 is a top view thereof;

FIG. 6 is a bottom view thereof;

FIG. 7 is a perspective view thereof;

FIG. 8 is a perspective view thereof;

FIG. 9 is a front view thereof in which the portable information terminal is folded;

FIG. 10 is a right side view thereof in which the portable information terminal is folded;

FIG. 11 is a perspective view thereof in which the portable information terminal is folded;

FIG. 12 is a perspective view thereof in which the portable information terminal is folded; and,

FIG. 13 is an enlarged sectional view taken along line 13-13 in FIG. 1 with internal mechanisms omitted.

The portable information terminal can function as a computer, a wireless communication device, a media reproducing device (e.g., a music player or a video player), a game machine, or the like. The portable information terminal can be folded so that a display portion is inside. The portable information terminal is used in a folded or unfolded state as necessary.
