Abstract: Methods of determining prognosis of a subject with cancer or determining risk of cancer progression by assessing expression of B7-H4, or B7-H1 and B7-H4 in combination.
INTERNATIONAL SEARCH REPORT

International application No.
PCT/US07/60150

A. CLASSIFICATION OF SUBJECT MATTER
IPC: A61K 38/00( 2006.01), 39/395( 2006.01), 49/00( 2006.01)
USPC: 5 14/2; 424/130. 1 9.2
According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED
Minimum documentation searched (classification system followed by classification symbols)
U.S.: 514/2; 424/130. 1 9.2

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)
MEDLINE, BIOSIS, Search terms: B7-H1 with B7-H4, human, sapiens, cancer & combinations
Inventors, PALM, EAST

C. DOCUMENTS CONSIDERED TO BE RELEVANT

[ ] Further documents are listed in the continuation of Box C.  
D See patent family annex.

Special categories of cited documents

- "A" document defining the general state of the art, which is not considered to be of particular relevance
- "E" earlier application or patent published on or after the international filing date
- "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- "O" document referring to an oral disclosure, use, exhibition or other means
- "P" document published prior to the international filing date but later than the priority date claimed

Note: "Y" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance, the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance, the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family

Date of the actual completion of the international search
22 June 2008 (22.06.2008)
