UNITED STATES PATENT OFFICE.

ALFRED A. BROOKS, OF BOSTON, MASSACHUSETTS.

DESIGN FOR AN INDIA-RUBBER OUTER SOLE.

SPECIFICATION forming part of Design No. 15,185, dated August 5, 1884.
Application filed May 10, 1884. Term of patent 14 years.

To all whom it may concern:

Be it known that I, ALFRED A. BROOKS, a citizen of the United States, residing at Boston, county of Suffolk, and State of Massachusetts, have invented and produced a new and original Design for India-Rubber Outer Soles for Boots and Shoes, of which the following is a specification, reference being had to the accompanying drawings, forming a part thereof.

Figure 1 represents the outer face of my newly-designed sole, and Fig. 2 a section on the dotted line x x.

The body of the sole shown in the drawings is provided at its ball and heel, inside the margins, with center fields, b c, studded with projections d d, the said projections being connected one with the other by ribs e e, giving to the sole the general appearance indicated in the drawings.

The essential features of my design are the series of projections or protuberances d, shown.

I claim—

The design for india-rubber outer soles for boots and shoes herein shown and described comprising the body and the fields within the margin a, studded with the projections d and ribs e, extending from one projection to another.

In testimony whereof I have signed my name to this specification in presence of two subscribing witnesses.

ALFRED A. BROOKS

Witnesses:

Jos. P. Livermore,
G. W. Gregory.
