(54) **Title:** CREATING ONLINE RESOURCES USING INFORMATION EXCHANGED BETWEEN PAIRED WIRELESS DEVICES

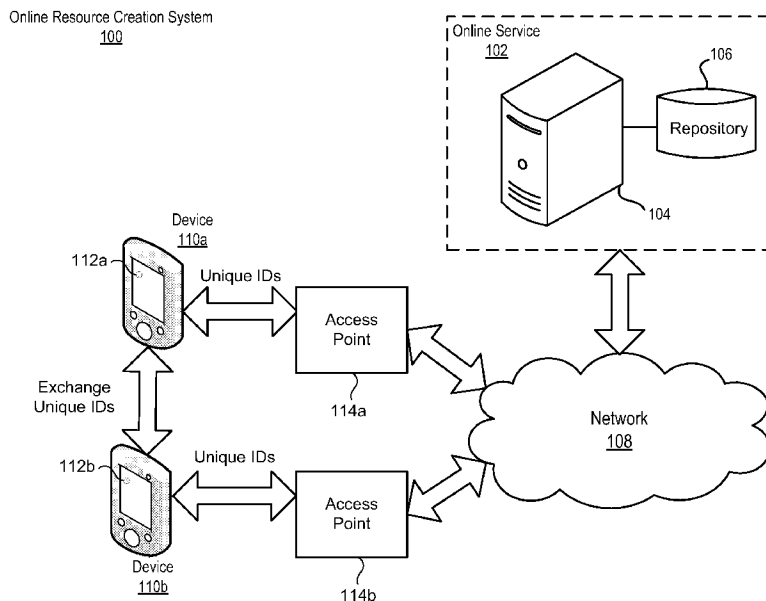

FIG. 1

(57) **Abstract:** A database of family, friends and professional network relationships are established through the exchange of unique identifiers between paired mobile devices using wireless technology. The paired mobile devices exchange information related to the users' identities. The mobile device users can independently upload the exchanged information through one or more access points to an online service. The online service uses the uploaded information to create online resources for the users.

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC 8 : H04W 8/20, H04Q 7/20, G06F 15/16

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Korean Utility Models and applications for Utility Models since 1975
Japanese Utility Models and application for Utility Models since 1975

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

eKOMPASS(KIPO internal) "online, resource, community, mobile, device, exchanging information, unique, identifier"

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family
